Discussion topics will include: Proposition 64 myths and truths for employers, reasonable suspicion, safety-sensitive positions, DOT versus non-DOT requirements, and impairment testing, with moderated Q&A to follow.

The event resulted from the Chico Chamber’s Cannabis Subcommittee work, where findings indicated businesses are navigating workplace safety issues, workplace policies, impairment testing, and other questions related to the outcomes of Proposition 64. Recommended by a Chico-based insurance firm, Holden Law Group was selected by the Chico Chamber to provide this overview and expertise for local businesses.
